

DID YOU KNOW?

*The most Brainy and Intelligent Philosopher Einstein Albert
Used only five (5) percent of knowledge in his brain out of hundred (100) percent.*

*The human brain is like Muscles, which can only be sharpen and expanded by constant usage,
So the only way a person can become intelligent is to utilize the brain.*

*Inside each human Brain are approximately (86) eight-six billion neurons interconnected
By more than 100 trillion synapses.*

*Doctor Benjamin Carson a neurosurgeon operated on twenty-nine (29) year old lalen and
Bijani conjoin twins from Iran standing for good thirty two hours (32) in the year 2003.*
